From which budget line(s) are the funds to be drawn? n/a

How will this motion be implemented, and by whom? The Secretary will certify and send letter on board's behalf

Governor Jerry Brown
c/o State Capitol, Suite 1173
Sacramento, CA 95814

(DATE)

Dear Governor Brown,

On any given night, there are over 115,000 homeless people in California – 21% of the entire nation's homeless population.

Counties across the state are facing a pervasive and deepening homeless crisis that imminently endangers the health and safety of tens of thousands of residents, including veterans, women, children, LGBT youth, persons with disabilities and seniors.

Nowhere is this more evident than in LA County – 47,000 homeless, including more than 6,000 parents and children – where the tremendous scale of homelessness threatens the economic stability of the entire region by burdening emergency medical services and the social services infrastructure.

It is time to treat this crisis like the emergency that it truly is. The increasing numbers of displaced homeless people and the lack of ongoing resources to stably re-house them require immediate and extraordinary action.

We urge you to support the request by the Los Angeles County Board of Supervisors to declare the homeless crisis a state of emergency and bring the concerted effort and resources needed to tackle this crisis in a meaningful way.

Respectfully,

Adam Somilleda

MOTION REQUEST

Date: July 22, 2016

Committee/Requestor: Anne-Marie Johnson

Text of Motion: The maker moves that the Silver Lake Neighborhood Council replace Standing Rule # 44 with the following language; Authorize 5 board members to draft and submit Community Impact Statements, which have been passed by a vote of the full board, through the City Clerk's online website system. Those 5 board members will be governing board co-chairs, the boards' secretary and two non executive board members and will have this authority for a year from the date of their appointment.

Committee Vote: Yes / No

Describe the event or project in detail:

The Standing Rule # 44 states: *Community Impact Statements*
The Co-chairs, the Secretary, and one board chair from each of the Governmental Affairs and Urban Design and Preservation committees will be granted password access to the Early Notification System to submit Community Impact Statements (CIS). (Adopted October 5, 2005; Revised December 7, 2005; Revised November 5, 2014)

The new language, proposed and approved during the SLNC June Special Board meeting, will streamline the process and help remove any confusion with regard to designated CIS drafters. Those 5 drafters approved on June 15th are: Co-chairs Heather Carson and Anne-Marie Johnson, Secretary Scott Plante, and board members Tracey Woolfolk and Rusty Millar.

What is the timeline for the project?

Immediately following the motions' approval by the SLNC Governing Board.

What is the total budget for the project? N/A

From which budget line(s) are the funds to be drawn? N/A

How will this motion be implemented, and by whom? SLNC Governing Board

MOTION REQUEST

Date: July 21, 2016

Committee/Requestor: Anne-Marie Johnson

Text of Motion: Maker moves that the Silver Lake Neighborhood Council add this additional language to SLNC Standing Rule 12 and to the header of all SLNC agenda forms. "All agenda items are actionable unless otherwise noted."

Describe the event or project in detail:

The immediate approval and addition of this language to Standing Rule 12 and all agenda forms, will codify advice provided by a city attorney, to the former board, in the recent past. Since this language cannot be found in the SLNC's Standing Rules or Bylaws, in order to officially adopt this advice, it should be added to the SLNC Standing Rules and agenda forms. The addition of this language to the header of all agenda forms will streamline the agendas, remove any confusion, and make the drafting of the agenda less burdensome for the drafter.

What is the timeline for the project? Immediately

What is the total budget for the project? N/A

From which budget line(s) are the funds to be drawn? N/A

How will this motion be implemented, and by whom? The SLNC Governing Board

MOTION REQUEST

Date: July 14, 2016

Committee/Requestor: Christine Kantner/The Sanborn Avenue Neighborhood Association

Text of Motion:

The Sanborn Avenue Neighborhood Association moves that The Silver Lake Neighborhood Council submit a public comment on the Sunset-Silver Lake Project Draft EIR to The City of Los Angeles Planning Department asking that the city deny the developers the variances that would allow them to increase the density of their buildings by up to 35%.

Describe the event or project in detail:

We are asking that The Silver Lake Neighborhood Council *not* support the Junction Gateway Development in its current state and to request that the city deny the developers the variances that would allow them to increase the density of their buildings by up to 35%. The developer is asking for variances in order to build 5 stories tall instead of the allowable 3 stories. The SLNC asks that the buildings be 3 stories in height with setbacks. This downsized model is the maximum allowable in the community plan.

If you wish to review a print copy of the Draft EIR or the documents referenced in the Draft EIR, you may do so by appointment, between the hours of 8:00 A.M. and 4:00 P.M. at the City of Los Angeles, Department of City Planning, 200 North Spring Street, City Hall, Room 750, Los Angeles, CA 90012.

Sunset-Silver Lake Project

ENV-2011-3299-EIR

State Clearinghouse Number: 2012031080

Council District: 13, Mitch O'Farrell

Community Plan Areas: Silver Lake-Echo Park-Elysian Valley (sites 1 & 3); Hollywood (Site 2)

Project Location: 4000 Sunset Boulevard, 4002-4038 Santa Monica Boulevard, 1069-1075 Sanborn Avenue, and 1068 Manzanita Street (Site 1); 4100 Sunset Boulevard and 1071, 1077, 1083, 1085, 1087, 1089 Manzanita Street (Site 2); and 4301, 4303, 4311 Sunset Boulevard and 4300, 4306, 4308, 4312, 4314 Effie Street (Site 3)

Project Description: The applicant proposes the development of three separate sites within a three-block radius along Sunset Boulevard. Each site will be a separate development in terms of design and construction, and each will require separate approvals from the City. While three separate developments are proposed, all three are analyzed in one EIR because of a common applicant and proximity of the sites to one another.

Site 1

Site 1 would be developed with approximately 79,064 square feet of floor area (FAR of 2.62:1) as a five-story building with a maximum height of 68-feet as measured from grade, containing 84 residential units, 4,678 square feet of creative office space, 3,699 square feet of restaurant uses, 2,001 square feet of retail uses, an 800-square-foot community room/cultural activity space, and 8,650 square feet of total open space. Residential development in the C2 zone allows for a density of one dwelling unit per 400 square feet of site area, which would permit a maximum of 73 base density dwelling units. An additional two units would be permitted with the 1,901-square-foot R3-1VL lot (at 1 unit per 800 square feet of lot area) for a total of 75 base density units. Site 1 would set aside 11 percent of the 75 base density units (or 9 units) for very low-income households, entitling the Project to incentives and waivers of development standards as well as a 35 percent density bonus under SB 1818 and the City's Implementing Ordinance (or 102 maximum units). To reduce the building massing and potential for parking impacts at this location, the Applicant only requests a partial 12% density bonus for 84 total units at Site 1. The Project on Site 1 seeks three development incentives and waivers of development standards to allow an FAR up to 2.62:1, to permit 5 stories (in lieu of the C2-1VL 3-story limitation), and a maximum building height of 68-feet (as measured from grade in lieu of 57-feet) and building envelope height of 63 feet (above the 56-feet, or an 11-foot height increase). Parking would include 123 on-site spaces in satisfaction of City Code requirements (with six required creative office parking spaces to be provided at Site 2).

Site 2

Site 2 would be developed with an approximately 80,670 square foot building measuring 89' feet in height. The project would contain 91 residential units, approximately 10,000 square feet of restaurant uses, and 7,460 square feet of open space. The commercial spaces would be primarily located along Manzanita Street and at the corner with Sunset Boulevard. The Project on Site 2 would set-aside 11 percent of the base density units (i.e., 8 units) for very low-income households, and is therefore eligible for a 35 percent market rate density bonus (totaling 91 units). The Project on Site 2 also requests three development incentives/waivers of development standards to permit an FAR of 3.0:1, up to a 20 percent reduction in required open space, and to calculate FAR based on lot area. Site 2 would provide 112 parking spaces, including 6 required spaces for the Site 1 creative office use. An additional 44 public parking spaces above City Code requirements would be provided as a public benefit.

Site 3

Site 3 would be developed with approximately 102,100 square feet of floor area as a four-story building (above a basement level) with a maximum height of 68-feet as measured from grade (56-foot maximum building envelope height). Site 3 would contain 122 residential units, 4,500 square feet of retail fitness center uses, 999 square feet of restaurant uses, an 850-square-foot community room, and approximately 12,450 square feet of open space. The Project would set-aside 11% of the 90 base density units (i.e., 10 units) for very low-income households, entitling the Site 3 Project to a 35 percent density bonus or 122 units. The Project on Site 3 seeks six development incentives/waivers of development standards, which would allow for an additional story and 11 feet of building height (total maximum allowable height would be 68 feet), an FAR of 3.0:1 on the portion of the Site zoned [Q]C2-1VL, 0-foot setback reductions along both Effie Street and Bates Avenue, vehicular access from a less restrictive (C2) to a more restrictive zone (R4) and calculation of density based on gross (as opposed to net) lot area, prior to any required dedications. While the incentive/waiver of development standard allows for an FAR of 3.0:1, the Project on Site 3 proposes an FAR of 2.96:1. Parking for Site 3 would include 159 spaces.

We are writing after careful review of the Environmental Impact Report (EIR) presented by Frost Chaddock regarding their three properties located in Silver Lake, a project commonly referred to as the "Junction Gateway."

Frost Chaddock has requested variances in order to increase their building sizes by 2 stories (in addition to the 3 stories they can build by-right, for a total of 5 stories). They are also requesting an increase in density of up to 35%.

The Silver Lake Neighborhood Council does not support Frost Chaddock's bid for these variances, as we believe these bonuses would make the scale of their buildings unmanageable for this area. By Frost Chaddock's own EIR estimate, their 3 buildings ***"could add up to 2,947 vehicle trips per day on its peak day week day."*** This neighborhood simply does not have the infrastructure or the parking necessary to sustain this flow, not to mention the amount of noise and pedestrian traffic.

In addition, these high-density properties could ***"produce long-term air quality impacts to the region...and CO standards could be exceeded at congested intersections with extreme traffic volumes...One intersection at Hoover Street/Fountain Avenue/Sunset Boulevard would remain significant in the AM peak...there is no feasible mitigation measure to reduce this impact to a less than significant level... The Project would have a Project-specific and cumulatively considerable significant and unavoidable impact at the intersection of Hoover Street/Fountain Avenue/Sunset Boulevard"***

Frost Chaddock's previous EIR was carefully inspected and widely opposed in the past for many of these same reasons. Now, almost 4 years later, the proposal is back and virtually identical in scope to the one a large percentage of the neighborhood rallied against before.

While we agree there is a need for housing, we believe the increased size of these buildings would negatively impact the quality of life in this neighborhood. We understand that change and growth are inevitable and necessary, but we also believe that the people who live in this area should have a say in what is built here and how.

Thank you for your time and consideration,

The Silver Lake Neighborhood Council
